WORKER DECLARES CHINA IS AWAKE

Dr. C. H. Robertson Will Deliver Three Interesting Lectures Here Today.

Dr. C. H. Robertson, a former professor of Purdue university, who has been engaged in educational work in China for the last six years, arrived in Salt Lake yesterday afternoon as the guest of the local Y. M. C. A. Mr. Robertson is deeply interested in the awakening of China, and as an active worker for one of the factors of the process has followed it closely. He has a clear insight into China's national life.

While in Salt Lake Dr. Robertson will address several audiences in Chinese subjects. One of the addresses will be delivered at the Y. M. C. A.

building at 4:30 o'clock, another will be at the First Presbyterian church at the time of the regular evening service. At each of these gatherings A. Q. Adamson, a Salt Lake man, who will leave in a few days to accept the position of Y. M. C. A. secretary at Foo Chow, will also speak.

A special meeting for boys will be held in the Y. M. C. A. at 3:30 o'clock, in which both speakers will take part. All interested in the growth of China are invited to attend these meetings.

The musical program that Claude J. Nettleton has arranged for the meeting in the Y. M. C. A. building at 4:30 o'clock is as follows: Soprano solo, Mrs. C. C. Daily; piano solo, Miss Ethel Nettleton; baritone solo, C. J. Nettleton.

In speaking of conditions in China, Dr. Robertson said:
China a Great Nation.
"It is easy for Americans to think of Japan as the great nation of the east, and that she has elements of greatness in unquestionable. But that she is to be compared with China, probably not 5 per cent of those who have visited and studied the two nations would admit. It is well, therefore, for Americans to follow the suggestions of President Taft and become awake to the real situation in the Orient, for it is there that some of the greatest of the future will be well as the possibilities of the future, lie."

portion to their means towards all sorts of philanthropic enterprises. Notwithstanding all these notable virtues that have come in Confucius heritage to his nation, Chinese civilization has been tried in the crucible of modern conditions and found wanting. One of the great steps that the empire took in five years in a clear and definite way was nothing less than the abolition of the old educational system that had been in vogue from hundreds of years before Christ and making thoroughgoing provision for a modern education system based upon those of the west.

FORMER EMPLOYEE ASKS RAILROAD FOR DAMAGES

John Selavon's asks for \$30,000 damages in a suit filed in the district court yesterday against the Union Pacific Railroad company. John was formerly employed by the company. In February last, while he was working in a steep cut between the Ontario mine and the railroad company's station at Park City he says he was struck by an engine and so badly hurt that his right arm was amputated and his left leg and little finger of his left hand were broken.

PILES CURED AT HOME BY NEW ABSORPTION METHOD

If you suffer from bleeding, itching, blind or protruding piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment, and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, box P, Notre Dame, Ind.

FIVE THIEVES TO EACH CITY BLOCK

Thirty Downtown Holdups Reported and Many More Are Suppressed.

"There are five thieves to each city block in Salt Lake."

This was the statement made by a business man yesterday.

The daring robbery at the Royal laundry yesterday morning adds one more to a series of big and little thefts in this city during the past few weeks.

Robberies ranging from petty thievery to hold-ups and burglaries have been reported by the scores to the police during the last two weeks, and probably less than one-fifth of the number have been made public.

As against this record, there is an average of but one arrest in twelve robberies. This is shown by the police court docket and police reports.

Daylight robberies are of common occurrence. There is an average of from three to five hold-ups each night, wanton aggressions being mainly responsible. Failure to prosecute in the few cases where the guilty women have been caught and the open protection afforded them make them bold.

Women are brought into police court, given "floaters," and they appear on the streets within a few hours. Marie

RECIPE FOR WEAK KIDNEYS

A recipe for weak kidneys and bladder which can be mixed at home or by any good druggist is as follows: "One-half ounce Muxar compound, one-half ounce fluid extract Buchu, six ounces good pure gin." Take in doses of one to two teaspoonfuls three times a day after meals. Backache, rheumatic pains, frequent or highly colored urination, pain in the hip or groin, dizziness, puffiness under the eyes, are symptoms which should have immediate attention to prevent chronic rheumatism, Bright's disease or diabetes.

Musey, a French woman, was given a "floater" in police court last Friday. Last Saturday night and each succeeding night since she has been a familiar figure at the corner of Commercial and East Second South streets.

Negresses brought to the station in hold-up cases, openly accuse patrolmen of breaking faith with them in bringing them to the station. It is remarked that these women are not called into the police court.

There have been over thirty hold-ups reported in the central portion of the city within the past week. Other hold-ups have been suppressed.

Citizens who a few years ago would have laughed at the mention of a revolver, are at present finding it necessary to carry guns.

A private safe may be rented in the fire and burglar proof vault of the Salt Lake Security & Trust Co., 22 up Main street, \$2.00 per year and upwards.

Election returns will be furnished by the Telephone company to its patrons Tuesday, Nov. 2.

Full the third lever to the right until the bell rings. It's a vote for fusion and honest city government.

NEW SALT LAKE DEPOT TO BE FINISHED SOON

Vice President of Western Pacific Talks of the Plans of the New Road.

Charles H. Schlacks, vice president of the Western Pacific, was in Salt Lake yesterday afternoon, on his way to San Francisco. With him in his private car was his brother, Henry Schlacks, the Chicago architect, who is supervising the building of the new depot in Salt Lake.

"There has been too much delay in this depot matter," said C. H. Schlacks. "We are going to put on a big force of men and rush the depot to completion within the next sixty days. We propose to have a modern station which will compare favorably with any of the recently erected depots in the West."

"When will the Western Pacific be opened?" Mr. Schlacks was asked.

"Just as soon as we can arrange it. The construction part of it is practically out of the way and that remains is to adjust the schedules and get the rolling stock in order. We expect to put on some freighters first to test the capacities of the line and to take out of the way and all that remain, but which become obvious in practice. It will probably be Jan. 1 before we have our through passenger trains running to schedule."

Mr. Schlacks was asked about further Western Pacific appointments. He said they would be announced either from San Francisco or New York.

J. C. Jeffery, Western Pacific and

That Double Chin

Every woman who is fat, and especially every woman (or man) who has a hog-like double chin, will welcome this new paragraph. Your night masks and sticking plaster strips and stockings are at an end. A method of reducing double chins (also fat abdomens and hips, shoulders, ankles and neck), that really does reduce them, has been found.

And would you believe it, it is nothing more than a simple, harmless, home receipt that any druggist will fill for you, viz.: 4 oz. Marmola, 4 oz. Fluid Extract Cascara Aromatic and 3/4 oz. Peppermint Water, a teaspoonful of which after each meal and at bedtime will take off up to a pound of fat a day. Try it—it is good for the stomach—strengthens that organ—so it turns the food into energy, bones, muscle, as it should, instead of into fat, as yours is doing now after each meal. Eat what you wish; drop exercising; be lazy even; this mixture will still trim up your figure. And it will do it evenly, too, without causing wrinkles, removing the soggy fat, such as double chins and stout abdomens are made of, first.

Denver & Rio Grande attorney, before he left for the East, had a short consultation with Mr. Schlacks.

Full the third lever to the right until the bell rings. It's a vote for fusion and honest city government.
